Overview of Information Collection

Collection Title: Demographic Information on Applicants

OMB Control No.: 3046-0046

Description of Affected Public: Individuals submitting applications for federal employment.

Number of Responses: 26,854,281

Estimated Time Per Respondent: 3 minutes

Total Burden Hours: 1,342,714 [(26,854,281x3)/60]

Federal Cost: None

Abstract: Under section 717 of Title VII and 501 of the Rehabilitation Act, the Commission is charged with reviewing and approving federal agencies plans to affirmatively address potential discrimination before it occurs. Pursuant to such oversight responsibilities, the Commission has established systems to monitor compliance with Title VII and the Rehabilitation Act by requiring federal agencies to evaluate their employment practices through the collection and analysis of data on the race, national origin, sex and disability status of applicants for both permanent and temporary employment.

While several federal agencies (or components of such agencies) have obtained OMB approval for the use of forms collecting data on the race, national origin, sex and disability status of applicants, it is not an efficient use of government resources for each federal agency to separately seek OMB approval. Accordingly, in order to avoid unnecessary duplication of effort and a proliferation of forms, the EEOC seeks approval of a form to be used by federal agencies.

Response by applicants is optional. The information obtained will be used by federal agencies only for evaluating whether an agency's recruitment activities are effectively reaching all segments of the relevant labor pool and whether the agency's selection procedures allow all applicants to compete on a level-playing field regardless of race, national origin, or sex. The voluntary responses are treated in a highly confidential manner and play no part in the selection. The information is not provided to any panel rating the applications, to selecting officials, to anyone who can affect the application or to the public. Rather, the information is used in summary form to determine trends over many selections within a given occupational or organization area. No information from the form is entered into an official personnel file.

Burden Statement: In fiscal year 2011, EEOC gathered data from the 59 federal agencies required to collect applicant data. Based on the agency responses, we expect that 26,854,281 applicants will be asked to complete the form.

Because of the predominant use of online application systems, which require only pointing and clicking on the selected responses, and because the form requests only eight questions regarding

basic information, the EEOC estimates that an applicant can complete the form in approximately 3 minutes or less.

OMB is particularly interested in comments which: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the Commission's functions, including whether the information will have practical utility; (2) Evaluate the accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.
